<p><b>Things I need to know</b></p>					
<p>How to log in and navigate around a computer.</p> <p>How to drag, drop, click and control a cursor using a mouse with accuracy.</p> <p>How to use software tools to create art on the computer.</p>					
<p><b>This will help me in the future:</b></p>					
<p>To use computers more purposefully</p>					

**What can you do using a mouse?**

When moving a mouse with your hand, you move the cursor around the screen. By clicking the buttons on a mouse you can access folders, click different options or files, drag things across the screen and drop items in to different folders.

**Username** – A unique name or email address for your account
